Unlimited production for VDP professionals

PrintShop Mail WEB

Web-based production server for multiple users

INCLUDING AN EXTENSIVE MAINTENANCE PLAN

OLCare

- Online training
- Updates & upgrades
- Technical support

WHAT IS VDP?

VDP STANDS FOR VARIABLE DATA PRINTING.

It is a printing process in which elements such as images and text change from one printed piece to the next, using information from a database.

WHAT IS IT USED FOR?

IN ITS SIMPLEST FORM, MAIL MERGE CONSTITUTES VDP.

But the true potential of VDP lies in the **personalization of promotional documents.**

PRINTSHOP MAIL ALLOWS YOU TO MASTER VDP WITHOUT THE HASSLE!

You can't go wrong; PrintShop Mail has been **the leading VDP software for over 15 years.**
